EXAMINER'S AMENDMENT

In the Drawings

The following changes to the drawings have been approved by the examiner: The reference numeral 14 should have a leader line(s) directed to the actual rod or rods discussed in the specification upon which the arms (16) are mounted. The replacement sheet presented in the 9 January 2006 amendment uses a leader line for numeral 14 directed to a circled group of components, not all of which are rods. In order to avoid abandonment of the application, applicant must make these above drawing changes.
